

Information For Teachers – Careers Information

All teachers should be linking curriculum learning with careers and future pathways.

If you are a teacher or member of staff in the school and would like to chat about our careers programme more, please contact careers@barnwood-park.gloucs.sch.uk or the internal Careers folder to find resources and further information.

In the meantime, here are a few simple things that you can do:

- Create a careers corner in your classroom/corridor
- Include pathways student could take at age 16 and age 18 during topics
- Highlight essential skills that link to activities, which could apply in the world of work
- Could you frame your lesson with a job role or job sector?
- Be personal and share your own story
- Engage with parents/carers, businesses and organisations to bring your teaching into real world examples
- Invite alumni in

Should you need further information relating to a stable careers programme, please see https://youtu.be/ylqMa5_0n2k
