

There is no requirement for students to own a camera – we have a stock of Compact, Bridge and SLR cameras that can be used in class and borrowed for homework.

No requirement to print or edit at home; if your daughter wants a similar editing programme to the one we use in class there are many free options online, or you can buy a single licence for Photoshop (around £80).

Here is an example Camera range we use in GCSE Photography (At present phones are not allowed in school, but homework can be completed on phones and emailed).

Compact

Sony W800
Compact camera
Currys £79.99

Bridge

Kodak Pixpro AZ401 from
Currys 139.99
Has manual features like
shutter speed + aperture

DSLR example

Nikon 3300 SLR – full manual features.
From around £150 used from London
Camera Exchange /Amazon/Ebay, or latest
Nikon 3500 from £449 new.
(Canon and Sony are just as good – I
recommend Nikon as we have 4 in class
and we can swap batteries and lenses.
